

MOHAMED MOHAMED GABER

Frontend Developer | Data Analyst

+201094193045 | mohammadgaber06@gmail.com | Madinaty, Cairo, Egypt | <https://mo-portfolio-two.vercel.app>

PROFESSIONAL SUMMARY

A fresh graduate Frontend Developer and Data Analyst with a B.Sc. in Business Information Systems (GPA: 3.89/4.0) from the Arab Academy for Science, Technology, and Maritime Transportation. Passionate about building polished, user-centered web experiences using React, and turning raw data into clear visual insights using Power BI and Tableau. Comfortable across the full product cycle — from wireframing in Figma to writing Python and SQL for analysis. Eager to contribute to teams that value clean interfaces and smart, data-driven decisions.

PROFESSIONAL EXPERIENCE

Banking & Analytics Intern | CIB — Commercial International Bank Egypt

Aug 2025

- Completed a structured training program covering ESG data analysis, sustainability reporting, and financial communication in a corporate banking context.
- Trained with industry partners including IFC, SAS, Frankfurt School of Finance, LinkedIn Learning, and Udemy
- Applied analytical thinking to real business scenarios as part of a large-scale banking internship program.

PROJECTS

Car Kit

React Native | Graduation Project

- Developed the frontend of a cross-platform mobile application using React Native, delivering responsive, user-friendly interfaces for car-related services.
- Designed and implemented the application's UI, creating reusable components and maintaining a consistent design system across multiple screens.
- Collaborated with the team to transform requirements into functional features while optimizing usability and overall user experience.
- Performed comprehensive UI and functional testing, debugging issues and ensuring a stable, polished application.

TradeLink — Business Material Exchange System

Oracle DB | System Analysis & Design

- Co-built a comprehensive online platform designed to empower small businesses with resources, expert advice, and networking tools — serving as the database lead on the team.
- Designed and implemented the full database architecture using Oracle, including ERD, data dictionary, CRUD matrix, and relational schema.
- Delivered full system analysis documentation covering use cases, user stories, activity diagrams, sequence diagrams, class diagrams, and DFDs.

SKILLS & TOOLS

Frontend: React, JavaScript, HTML5, CSS3 — responsive design, UI prototyping, component-based architecture

UI & UX Design: Figma, Canva — wireframing, UI design, prototyping

Data Analysis: Python, SQL, MySQL, Power BI, Tableau — data cleaning, analysis, and visualization

Developer Tools: VS Code, PyCharm, Antigravity, Power BI, Tableau, Microsoft Office, Git, Postman

Soft Skills: Analytical Thinking | Problem Solving | Attention to Detail | Teamwork | Adaptability | Time Management

EDUCATION

Bachelor of Business Information Systems | Arab Academy for Science, Technology & Maritime Transportation — Cairo, Egypt | Fresh Graduate **GPA: 3.89**
